DETAILED ACTION

Response to Amendment

Claim Rejections - 35 USC § 101

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1, 2, 5 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claim 1 of copending Application No. 10/334,317. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 112

Claims 1- 8 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the non-operational" field programmable gate array in line 7. There is insufficient antecedent basis for this limitation in the claim.

Claim 3 recites the limitation "the sensed failure" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 4 recites the limitation "the spacecraft" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claims 2-7 are rejected for incorporating the deficiencies of their base claim.

In claim 8, it is unclear whether the field programmable gate array at line 3 is the same as the field programmable gate array in line 5.

Allowable Subject Matter

Claims 9-20 are allowed. Reasons for allowance will be provided at in future prosecution of the application.

Response to Arguments

Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
